

55 is used by some in Thailand as slang for "haha", because the word for "five" is pronounced "ha".

If you write
out pi to two
decimal
places,
backwards it
spells "pie".

MATHEMATICS

It may not teach us how to breathe oxygen
and how to exhale carbon dioxide.

Or to love a friend and forgive an enemy.

It may not even help us find our way to our
one true love.

But it gives us every reason to hope that
every problem has a solution.

"Four" is the only number in the English language that is spelled with the same number of letters as the number itself

Think of a number, double it, add six, divide by two, then subtract the number you originally started with.

Your answer is 3.
